

# WHAT IS THE IMPACT OF CHRONIC DISEASE ON MICHIGAN?

PARTNERSHIP TO FIGHT  
CHRONIC DISEASE  
A VISION FOR A HEALTHIER MICHIGAN

FightChronicDisease.org/Michigan

Projected total cost of chronic disease 2016-2030 in Michigan

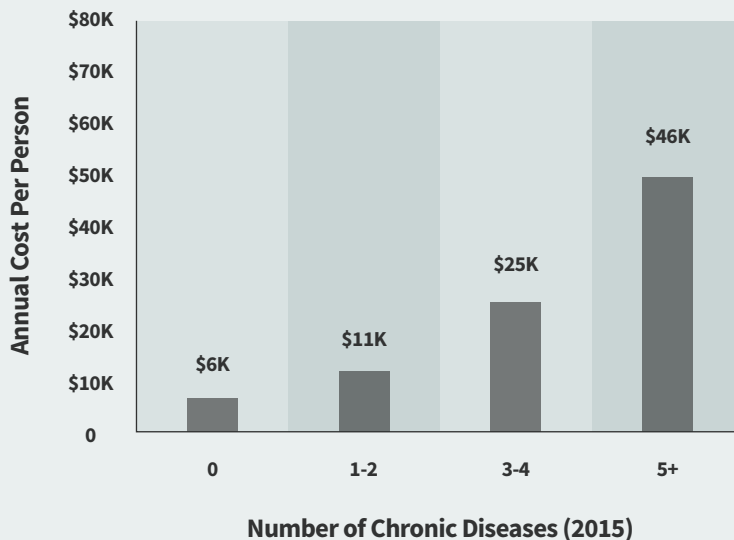

# \$1.3 TRILLION

In 2015, **6.1 million** people in Michigan had at least 1 chronic disease, **2.4 million** had 2 or more chronic diseases.

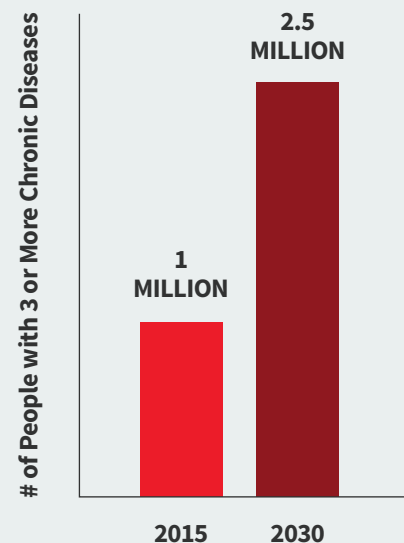

Chronic diseases could cost Michigan **\$59.9 billion** in medical costs and an extra **\$25.8 billion** annually in lost employee productivity (average per year 2016-2030).

**5% OF PEOPLE ACCOUNT FOR 50% OF HEALTH CARE SPENDING<sup>1</sup>  
IN MICHIGAN...**

HEALTH CARE COSTS ARE CONCENTRATED AMONG THOSE WITH MULTIPLE CHRONIC DISEASES

NUMBER OF PEOPLE WITH 3+ CHRONIC DISEASES IS GROWING

<sup>1</sup> SB Cohen, "The Concentration and Persistence in the Level of Health Expenditures over Time: Estimates for the U.S. Population, 2012- 2013." Statistical Brief #481. AHRQ, Sept. 2015. [http://meps.ahrq.gov/mepsweb/data\\_files/publications/st481/stat481.pdf](http://meps.ahrq.gov/mepsweb/data_files/publications/st481/stat481.pdf)

**\$8,900 PER  
MICHIGAN RESIDENT**

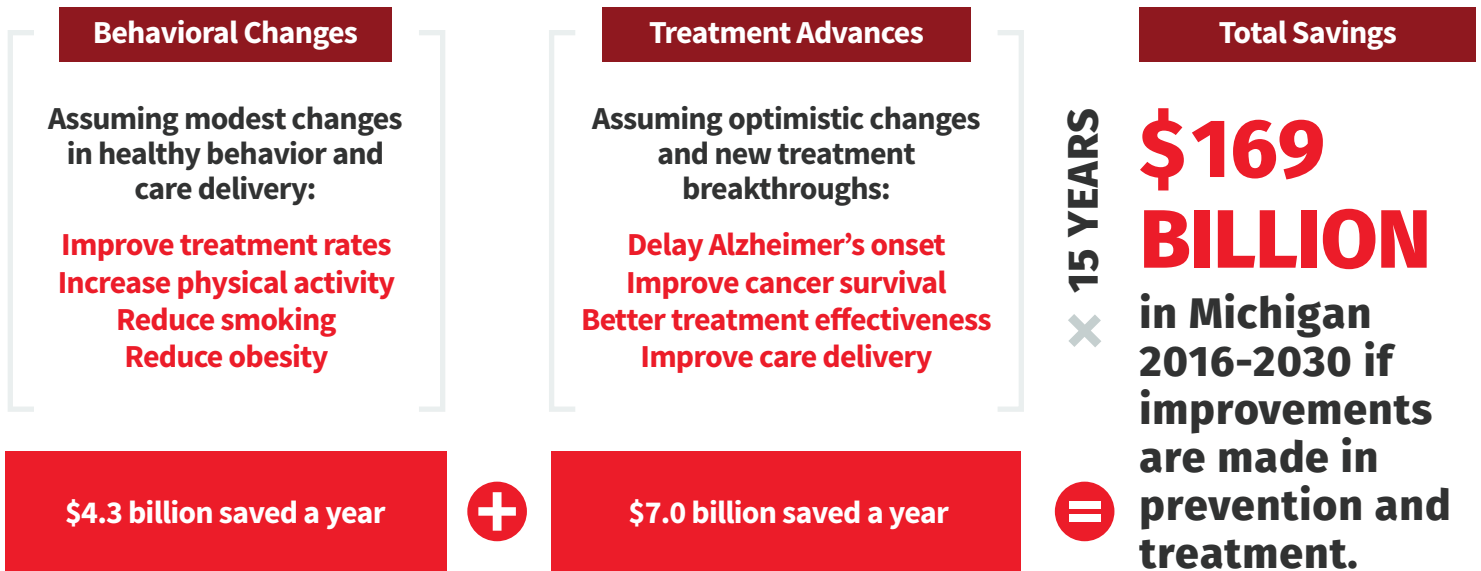

Projected **per person** medical and productivity cost of chronic disease in 2030 if current trends continue

**In Michigan, 41,600 lives could be saved annually through better prevention and treatment of chronic disease.**

**TOGETHER WE CAN DO BETTER**

# Now is our chance to make a difference. Simple changes can prevent new cases of chronic disease and save money for Michigan.

Medical breakthroughs can and will transform lives and save health care costs over the next 15 years in Michigan and across the United States.

	Michigan	U.S.
Prevented Cases of Chronic Disease	5.5 Million	169 Million
Total Cost Avoided	\$169 Billion	\$6 Trillion
Lives Saved	624 Thousand	16 Million

NOTE: The above outcomes are averages of annual outcomes across 2016-2030. All estimates are based on a microsimulation analysis conducted by IHS Life Sciences.
